Max, here is what your chart shows

Max, this is your Path Map: a reading of how different places around the world respond to your birth chart. From the date, time and place of your birth, we calculated where on Earth each planet was rising, setting, culminating overhead or passing its lowest point at that moment. Those places become the lines on your map, and near them a planet's theme tends to sound louder in your life. You named career and home as your priorities, so the report gives both of them extra attention.

In this report the signs follow the Vedic system, which is shifted by about 24° from the familiar Western horoscope, so a sign here may differ from the one you know. Your Sun is in Leo: you need your work to be visible, with room for your own voice and a generous sense of scale, so a place that keeps you in the background rarely feels right for long. Your Moon is in Aquarius, in the nakshatra Shatabhisha, and it looks for freedom and like-minded people: you recharge through independence, ideas and a little solitude, and you quickly feel cramped where there is too much control. Your Ascendant in Pisces makes you sensitive to the atmosphere of a place: you usually sense within days whether it is yours, and you open up most where life feels calm and there is water or open space nearby.

Sun Leo

Moon Aquarius

Ascendant Pisces

MC Sagittarius

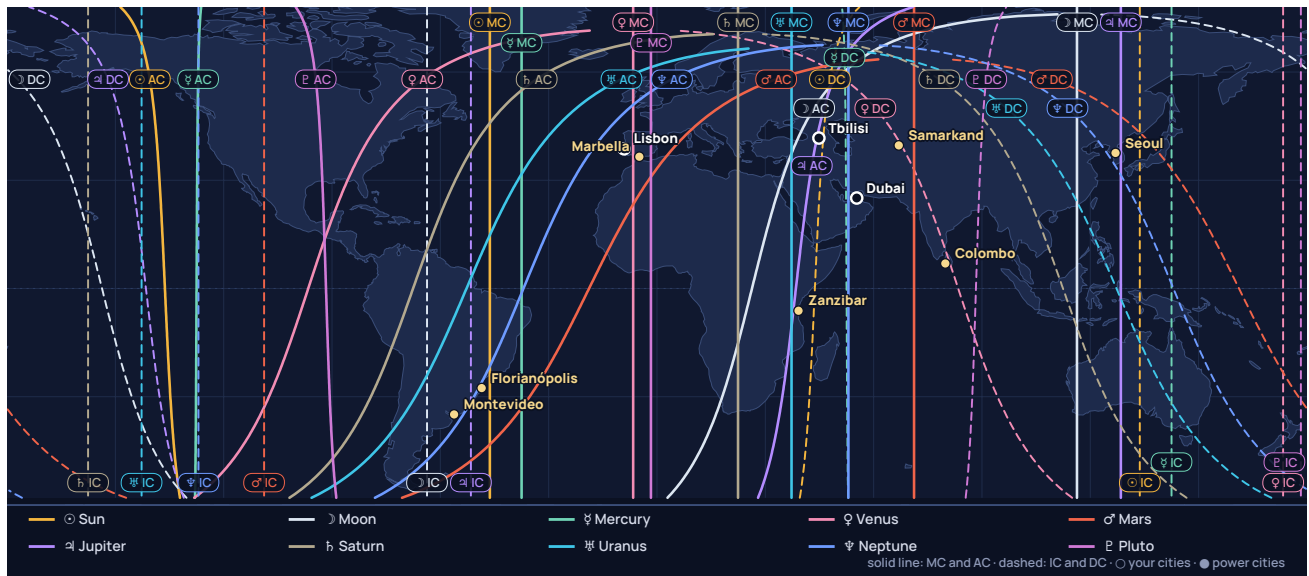

Moon nakshatra: Shatabhisha

Signs follow the Vedic system (sidereal zodiac, Lahiri ayanamsa). It is shifted by about 24° from the Western one, so your sign may differ from the one you know from horoscopes. The lines on the map do not depend on the system.

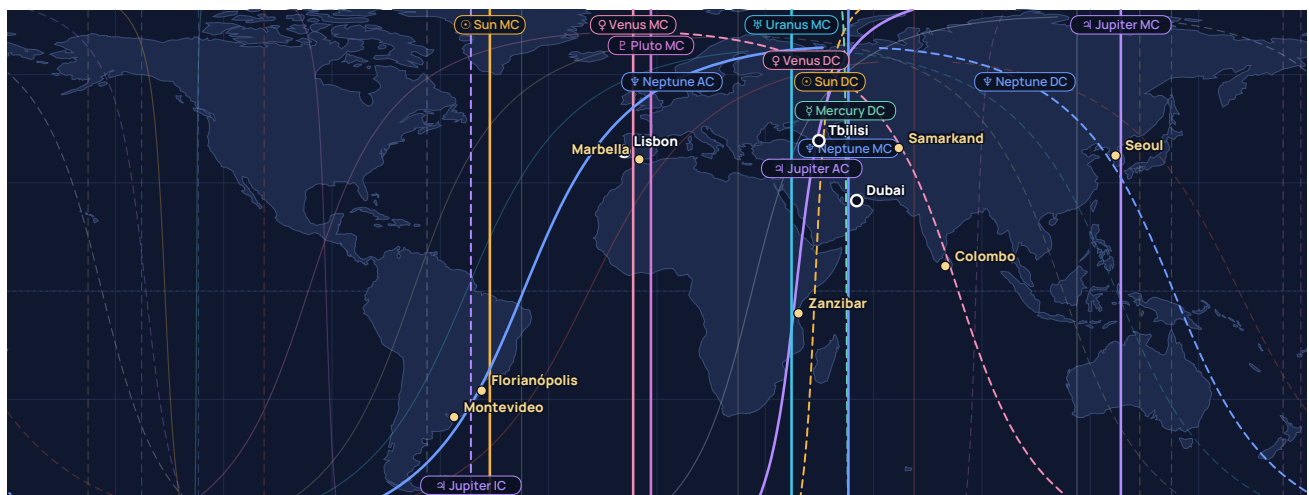

How to read the map

Each colored line is one of your planets on one of the four angles of the chart: MC (career and status) and IC (home and roots) run straight from north to south, while AC (self and energy) and DC (partnership) curve across the continents; MC and AC are drawn as solid lines, IC and DC as dashed ones. The closer a city is to a line, the stronger its influence: within 150 km the line runs through the city, up to 350 km the influence is strong, up to 600 km it is noticeable, and up to about 800 km it is weak, at the edge. When several lines pass near one city, their themes blend, so read them together rather than one at a time. The lines do not depend on the zodiac system: they mark where each planet was rising, setting or culminating at the moment you were born.

All the lines of your planets

Lines that affect your cities

Your power places

CAREER AND MONEY · SOUTH KOREA

Seoul: Jupiter on the MC and a bigger stage

Jupiter · MC · 131 km

Neptune · DC · 186 km

Sun · IC · 594 km

Seoul sits right on your Jupiter line on the MC, just 131 km away. In classical astrocartography this is one of the most supportive lines for career, status and recognition: growth, influential patrons and doors that open at a higher level. Neptune on the DC at 186 km is also strong and colors your partnerships with inspiration but also with some fog, so people may be harder to read than they seem. The Sun on the IC at 594 km adds a quieter, noticeable sense of having a base behind you. In Seoul you may feel ambitious and in demand, as if your work is finally seen at the scale you want. Use the city for growing a business, international projects, a senior role or a long working stay. Watch the partnership side: with Neptune on the DC, agree on roles and terms in writing, and do not take charming words at face value.

Good for: career growth and status · international projects · a senior or leading role

With Neptune on the DC, check what partners actually promise before you rely on it.

HOME AND RELOCATION · BRAZIL

Florianópolis: career and home in one place

Neptune · AC · 75 km

Sun · MC · 224 km

Jupiter · IC · 294 km

Florianópolis is one of the rare places on your map where both of your priorities meet. The Sun on the MC passes 224 km away, a strong line of visibility that classically supports leadership, reputation and work that carries your name. Jupiter on the IC at 294 km is just as strong and speaks of home: growth through family, roots and a sense of "my place." Neptune on the AC runs right through the city, 75 km away, and softens everything: life by the ocean may feel inspiring and dreamy, and you may pick up the moods of people around you more than usual. That makes the city a strong candidate for a home base, for creative or public projects and for a slower, more meaningful rhythm. Keep an eye on your energy and focus: Neptune can blur boundaries and plans, so hold on to a clear daily structure and concrete goals.

Good for: a home base by the ocean · visible, creative projects · putting down roots

Neptune on the AC blurs boundaries, so anchor your days with a steady routine and concrete goals.

Colombo: Venus on your line of partnership

Venus · DC · 135 km

Colombo has only one line nearby, but it is among the most pleasant on your map: Venus on the DC passes 135 km from the city, close enough to run through it. Astrocartography reads this line as support for love, harmony in a couple and partnerships in which both sides feel valued; it also favors business alliances in beauty, hospitality and design. People here may meet you halfway more readily, and conversations that feel tense elsewhere tend to turn warmer. With no tense lines around, the place feels calm and kind rather than demanding. It suits a trip for two, meeting new people, deepening a relationship, or a joint project with a pleasant, creative feel. The limit is ambition: for a career push or a long-term home base, other cities on your map carry stronger lines, so treat Colombo as a place for people rather than for goals.

Good for: romance and new acquaintances · a calm trip for two · warm business alliances

Venus makes everything feel easy here, so keep clear terms in shared projects even when the mood is good.

Zanzibar: a recharge with room for new ideas

Jupiter · AC · 158 km

Uranus · MC · 216 km

Sun · DC · 468 km

Near Zanzibar, Jupiter on the AC passes 158 km away, a strong line of confidence and optimism: traditionally it helps you feel bigger, freer and more generous, and people tend to respond to that openness. Uranus on the MC at 216 km is also strong and brings change and freedom into your work: fresh ideas, unexpected offers and a wish to work on your own terms. The Sun on the DC at 468 km adds a noticeable note of bright, supportive people around you. Days here can feel lighter and more spacious, as if everyday pressure loosens its grip. Come here for a reset, a working retreat, strategy sessions or shaping a new direction or project. Keep one thing in mind: Uranus on the MC makes plans changeable, so treat ideas born here as drafts and test them before you commit.

Good for: a reset and recharge · a working retreat · new ideas and strategy

Uranus on the MC makes work plans changeable, so keep a backup option for anything important.

Marbella: recognition through style and service

Venus · MC · 152 km

Pluto · MC · 288 km

Mars · AC · 566 km

Marbella has two strong career lines. Venus on the MC runs 152 km from the city, and in classical astrocartography it brings recognition, goodwill and money through pleasant things, so work connected with beauty, comfort, hospitality, design or premium service tends to go well here. Pluto on the MC at 288 km adds depth and power: a wish to influence, change the rules and reach a new level, but also higher stakes and possible power struggles. Mars on the AC at 566 km noticeably

speeds up your pace. The city may bring out your charm and your ambition at once, along with a wish to play for big results. Marbella works well as a European base for projects where taste and reputation matter, and for business trips and presentations. Mind the pull between Venus and Pluto: keep negotiations elegant rather than forceful, and pace yourself so the faster tempo does not wear you out.

Good for: beauty and service projects · reputation and visibility · business trips

Pluto on the MC raises the stakes, so stay out of power games at work.

HOME AND RELOCATION · URUGUAY

Montevideo: a quiet harbor for home and roots

Neptune · AC · 204 km

Jupiter · IC · 424 km

Montevideo is a place for home rather than ambition. Jupiter on the IC passes 424 km away, a noticeable line that supports roots, family and the feeling of having found your place; the Moon on the IC at 684 km is at the edge of influence and adds a faint note of comfort and belonging. Neptune on the AC at 204 km is strong and makes the atmosphere soft and dreamy: you may feel calmer and more intuitive here, though less driven. Life may slow down in a good way, leaving more room for family, rest and reflection. Consider the city for a peaceful home base, a long stay to settle in, or creative and reflective work. The one thing to watch is momentum: with Neptune on the AC it is easy to drift, so give each week a clear plan and keep work goals concrete.

Good for: a calm home base · family life · reflective, creative work

Neptune on the AC can sap momentum, so keep a weekly plan and clear goals.

LOVE AND RELATIONSHIPS · UZBEKISTAN

Samarkand: Venus runs right through the city

Venus · DC · 56 km

Mars · MC · 361 km

Samarkand holds one of the closest lines on your map: Venus on the DC passes just 56 km from the city. By the classical reading this is one of the warmest lines for romance, closeness and partnerships that feel good on both sides, and it also supports pleasant business alliances wherever comfort, hospitality and beauty matter. Mars on the MC at 361 km is noticeable and adds drive to your work: a wish to act decisively and stand out, but also a risk of friction with bosses or competitors. You may be received as a welcome guest, and new contacts tend to form with surprising ease. Samarkand is a fine choice for travel with a partner, strengthening a relationship, and partnership projects where taste and atmosphere count. At work, choose negotiation over pressure, because Mars on the MC heats up disputes.

Good for: strengthening a relationship · travel with a partner · partnership projects

Mars on the MC can turn work disagreements into contests, so negotiate rather than push.

YOUR DIRECTIONS

The cities you are choosing between

Of the three cities you are considering, Tbilisi speaks loudest on your map: Jupiter on the AC at 45 km and the Sun on the DC at 100 km both run through the city, a combination of luck, confidence and important people close by. It is the main candidate if you want to live and grow at the same time.

Lisbon is the career option: Venus on the MC at 221 km supports recognition and income through pleasant, people-friendly work, while for home it stays neutral. Dubai is more mixed: Mercury on the DC helps deals and negotiations, but Neptune on the MC blurs career direction, so it works better for business trips than as a base. Since home is one of your priorities, note that none of the three has an IC line nearby; on your map that theme is strongest in Florianópolis and Montevideo. In short: Tbilisi for living and growth, Lisbon for career and reputation, Dubai for deals.

City	Career	Relationships	Energy	Home	Verdict
Tbilisi	good: growth through people	strong: Sun on DC	very strong: Jupiter on AC	a little warmth: Moon on AC	the main candidate to live and grow
Lisbon	strong: Venus on MC	light support from Venus	a little softer: Neptune at the edge	neutral	career and reputation
Dubai	blurry: Neptune on MC	deals, not romance: Mercury on DC	neutral	neutral	talks and business trips, not a base

YOUR CITY · LISBON, PORTUGAL

Lisbon: recognition through pleasant work

Venus · MC · 221 km

Neptune · AC · 634 km

Pluto · MC · 647 km

Lisbon's main line is Venus on the MC, 221 km from the city, and it is strong. In classical astrocartography Venus at the top of the chart brings recognition, goodwill and income through pleasant things: work in beauty, design, hospitality or comfort tends to flow more easily here, and people are likely to see you as attractive and easy to work with. Neptune on the AC at 634 km and Pluto on the MC at 647 km are already at the edge of influence: the first may slightly soften your energy and focus, the second adds a faint note of ambition. Lisbon is a good choice for career and reputation, while for home and roots it stays neutral, so your sense of belonging there depends more on lifestyle than on your map.

Dubai: strong for deals, blurry for career

Neptune · MC · 231 km

Mercury · DC · 297 km

Two strong lines pass near Dubai. Neptune on the MC at 231 km touches career and status: in classical astrocartography it favors creative work, inspiration and projects with a vision, but it makes direction, roles and expectations less clear, so goals can drift and offers can sound better than they turn out. Mercury on the DC at 297 km supports negotiations, contracts and business partnerships: here it is easier to find common ground, close deals and meet useful people. For romance, energy and home, Dubai is neutral on your map. That makes it a good city for business trips, talks and networking, but a less reliable base for building a career. If you work there, put agreements in writing, check the details twice and set measurable goals for each stage.

Tbilisi: luck, confidence and strong allies

Jupiter · AC · 45 km

Sun · DC · 100 km

Moon · AC · 447 km

Mercury · DC · 615 km

Tbilisi is the strongest of your three cities. Jupiter on the AC runs right through it, only 45 km away: in classical astrocartography this line brings confidence, optimism and a feeling that doors open more easily. The Sun on the DC at 100 km also runs through the city and puts partners, clients and important people in the spotlight: here it is easier to find allies and build relationships in which you are valued. The Moon on the AC at 447 km adds a noticeable note of warmth and emotional comfort, while Mercury on the DC and Uranus and Neptune on the MC are at the edge of influence. Tbilisi is a city where you can both live and grow; just make sure your plans grow no faster than your time and energy.

Where to be more careful

Helsinki, Finland

In Helsinki, Saturn on the MC runs through the city, 138 km away: classically this makes career a test of strength, with slow progress, heavy responsibility and strict judgment. Mars and Neptune on the AC, at 470 and 486 km, bring drive on some days and haze on others, and Uranus on the MC, at the edge, keeps plans changeable. Plan work visits around one clear goal; for a move, softer lines elsewhere suit you better.

Tallinn, Estonia

Tallinn carries much the same pattern as Helsinki, slightly softer. Saturn on the MC passes 131 km away, right through the city, so work here usually asks for patience, discipline and proof before recognition comes. Mars on the AC at 415 km quickens your pace and temper, Neptune on the AC at 554 km can blur focus, and Uranus sits at the edge. If business brings you here, set realistic deadlines and leave time to rest between meetings.

Warsaw, Poland

Two tense lines run through Warsaw. Mars on the AC is only 24 km away, so energy runs high: you may feel driven and quick to act, but also quicker to clash. Saturn on the MC at 97 km makes career demanding and slow to reward. Short trips with a clear task work well; for a longer stay, pick your battles, plan rest and take on one thing at a time.

Periods of change

● Nov 14, 2026 – Jan 5, 2027

Restless changes at home and in mood

Uranus · square · Moon

From mid-November to early January, Uranus squares your Moon. Home life, family routines and your mood may bring surprises: a sudden wish to change everything, to move or to clear out whatever feels too tight. It is a good time to explore new places and ideas about where you want to live, but not the best moment for abrupt decisions that are hard to undo. Let the impulse take shape first, especially around December 7, when the influence peaks.

● Mar 11, 2027 – May 18, 2027

A window for growth and confidence

Jupiter · trine · ASC

From mid-March to mid-May, Jupiter forms a harmonious trine to your Ascendant. This is one of the most supportive windows of the year for new beginnings, travel, introductions and presenting yourself: it is easier to be seen, and help tends to arrive more readily. If you are thinking about a move or a trial trip to a new city, this period is a strong candidate, especially around March 31 and April 26.

● Mar 15, 2027 – Apr 30, 2027

A second wave of change at home

Uranus · square · Moon

Uranus returns to the square with your Moon, and the winter themes, a wish for freedom and for changes at home and in family routines, come back asking for a decision. The supportive Jupiter window runs at the same time, so changes you sketched out in winter may now find firmer footing. Change your circumstances deliberately rather than on impulse, especially around April 10, when this influence is at its strongest.

● Mar 16, 2027 – Jul 5, 2027

A deep review of what you value

Pluto · square · Venus

From mid-March to early July, Pluto squares your Venus. Your attitude to pleasure, comfort and close people may change at a deep level: what used to delight you can lose its taste, and you may want something more real and honest. It is a good time to look calmly at your relationships and habits and keep what is truly yours, without drama or sudden breaks. If strong feelings surface, let them lead to reflection rather than ultimatums.

● **Mar 24, 2027 – Apr 17, 2027**

A time for mature decisions

Saturn · conjunction · ASC

From late March to mid-April, Saturn crosses your Ascendant. You may feel a strong wish to take responsibility for your life and put your plans, schedule and commitments in order. Your energy may run lower than usual, but decisions made now tend to be solid and lasting. It is an excellent time to draw up a clear, step-by-step plan for a move or a project, especially around April 5, when Saturn is exact.

● **Apr 11, 2027 – Oct 18, 2027**

Searching for a new professional direction

Neptune · square · MC

From mid-April to mid-October, Neptune squares your MC. Career goals may feel less clear: the old direction no longer seems quite yours, while the new one has not taken shape yet. This favors creative search, learning and inspiration, but it is a less suitable time for serious professional commitments made without careful checking. Double-check the details of offers and agreements, especially around May 11 and September 11, when the influence is strongest.

● **Aug 4, 2027 – Aug 18, 2027**

Generous emotions and warm gatherings

Jupiter · opposition · Moon

In the first half of August, Jupiter opposes your Moon. Emotions run generous: warm meetings, family occasions and a wish to live on a grand scale. It is a good period for trips with people close to you and for celebrations. Keep an eye on balance, though: it is easy to take on more than you want or to overcommit your time and energy, especially around August 10, when the influence peaks.

● **Aug 16, 2027 – Aug 30, 2027**

A window for a career step

Jupiter · trine · MC

In the second half of August, Jupiter forms a trine to your MC, a supportive window for career moves: talks about a new role, launching a project, public appearances. If you mapped out a new direction in the spring, late August is a good moment to take the first visible step, especially around August 22, when the support is strongest. Prepare in advance so you are ready to act when the window opens.

What to do next

1. Spend about a week each in Tbilisi and Lisbon, noting where work flows more easily and where you feel calmer.
2. For career, look at Seoul (Jupiter on the MC, 131 km); for career and home together, Florianópolis (Sun on the MC, Jupiter on the IC).
3. Plan trial trips and fresh starts for mid-March to mid-May 2027, when Jupiter supports your Ascendant.
4. From April to October 2027, double-check career offers and agreements before committing: Neptune squares your MC.
5. Keep Helsinki, Tallinn and Warsaw for short trips with a clear task: Saturn on the MC makes work there slow going.

This report is based on astrocartography and is for information and entertainment purposes. It is not medical, legal, financial or immigration advice. Decisions about moving, work and relationships are yours to make.
